Sorry, I meant to also forward you all links to the USGS and NOAA sites for the Animas River Stream Gauge in Durango.

Cheers,

Mike

Animas river level (and forecast) in Durango..

Subject: Coordination, Rain today and AR.

Hi all,

1. The AR copies were delivered to Window Rock (Navaho) and Farmington, NM yesterday. Adds have been placed with the papers.
2. It's raining off and on heavily here since last night and today. Animas river flowrate has increased from 200 cfs yesterday to 250 cfs today. We expect more naturally occurring turbidity with the rain event. Per the Stakeholder Notification Plan this event may call for exercising the plan. The timeline is by the end of day, I will do this.

Cheers,

Mike
